(5) Fees

There are no fees related to investment because the full amount of funds of the Annuity Retirement Benefit Fund is invested in domestic bonds through in-house investment.

2 Risk management

(1) Approach to risk management

Generally speaking, "risk" refers to the "possibility of an incident that could have a negative impact on an organization's goals and objectives." In the field of asset investment, "risk" refers to the range of fluctuations of expected return on investment. Risk in this sense includes not only the possibility of failing to secure the required yield but also the range of fluctuations of return on investment due to various risks, such as interest rate risk, price fluctuation risk, credit risk, and liquidity risk.

Therefore, for asset investment, it is important to consider various risks commensurate with investment from a long-term perspective.

The Local Public Service Mutual Aid Associations (the "Associations") appropriately implement risk management for investment in accordance with the "implementation policy for risk management concerning investment of the fund" in consideration of the following points: that investment of funds should be made safely and efficiently from a long-term perspective and the characteristics of a cash balance-type pension plan that links the benefit level to the government bond yield or other benchmarks.

Implementation policy for risk management concerning investment of the fund (excerpt)

1 Basic approach concerning risk management

The Mutual Aid Association of Prefectural Government Personnel, the Japan Mutual Aid Association of Public School Teachers, the Japan Police Personnel Mutual Aid Association, the Mutual Benefit Association for Tokyo Metropolitan Government Employees, the National Federation of Mutual Aid Associations for Municipal Personnel, and the Pension Fund Association for Local Government Officials (the "Association") appropriately conduct risk management related to the investment of their funds in light of the following matters.

(i) Investment of funds should be made safely and efficiently from a long-term point of perspective.

2 Risk management implementing entities and subjects of management

(2) Annuity Retirement Benefit Fund

(i) The Association conducts risk management for investment of the Annuity Retirement Benefit Adjustment Fund and the Annuity Retirement Benefit Association Reserve Fund (hereinafter referred to as "Annuity Retirement Benefit Fund").

(ii) The member associations conduct risk management for investment of the Annuity Retirement Benefit Association Reserve Fund (in the case of the Association, the Annuity Retirement Benefit Adjustment Fund).

(2) Risk management efforts

■Management of the deviation of the asset mix

Investment based on the benchmark portfolio requires the management of various risk factors. Therefore, in order to secure profits in line with the benchmark portfolio from the long-term perspective, it is important, in particular, to manage the degree of deviation of the asset mix of the actual portfolio from that of the benchmark portfolio.

Specifically, for their assets as a whole, the Associations keep track of and manage the status of the deviation of the actual portfolio from the benchmark portfolio in terms of the asset mix.

■Management of asset administration institutions

The Associations require asset administration institutions to improve systems to fulfill the fiduciary responsibilities and ensure compliance and appropriately manage them by keeping track of their status of asset administration.

■Reporting on the status of risk management and improvement measures implemented

The status of risk management and improvement measures implemented are reported to the committees of specialists and the Governing Council.

(3) Status of risk management

The full amount of funds of the Annuity Retirement Benefit Fund is invested in domestic bonds.

The duration deviation from NOMURA-BPI Overall ranged from 1.7 years to 2.3 years.

Section 2

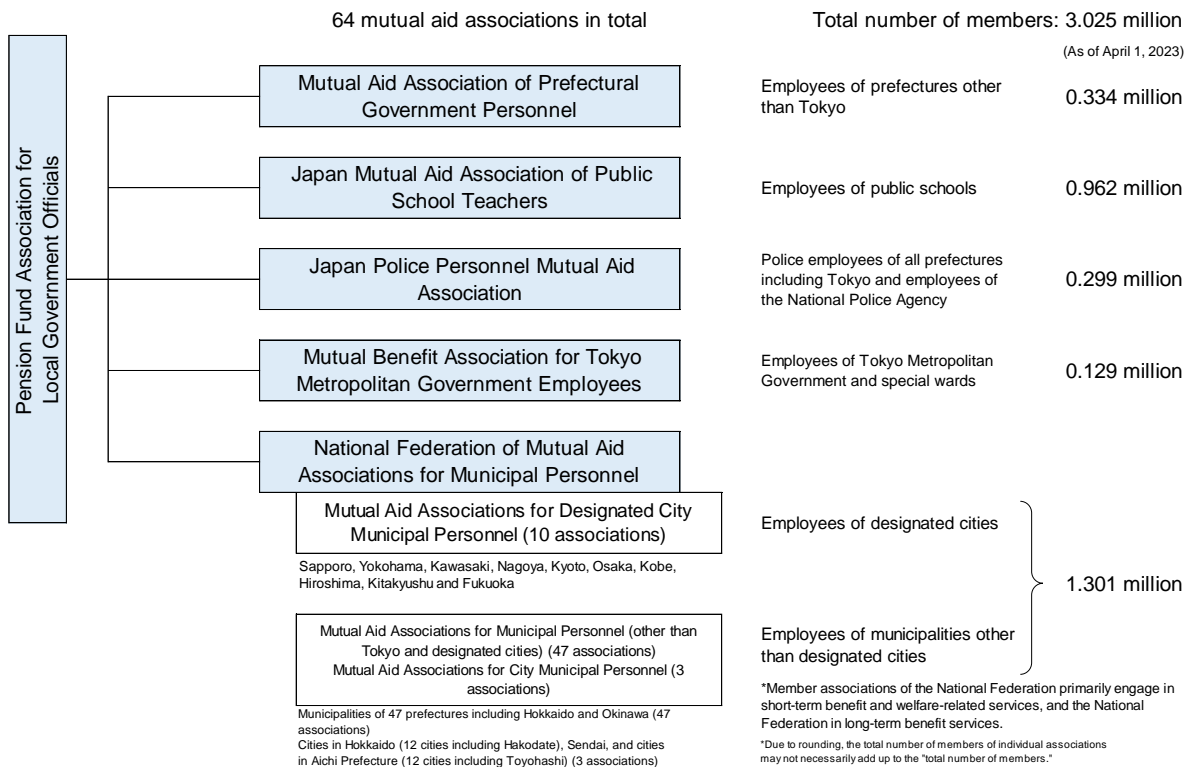

Businesses and Fund Management of Local Public Service Mutual Aid Associations

1 Establishment

Article 43 of the Local Public Service Act provides "A mutual aid system shall be implemented in order to provide appropriate benefits in cases of employees' illness, injury, childbirth, involuntary leave, calamity, retirement, disability or death, or their dependents' illness, injury, child birth, death or calamity." Based on this provision, the Local Public Officers, etc. Mutual Aid Association Act has been enacted.

The pension fund system for local government officials was established in December 1962 as a system to comprehensively manage the long-term benefits program, short-term benefits program and welfare services program for local government employees and their families, for the purpose of providing mutual aid for local government employees.

3 Investment of funds

(1) Mechanisms

The Pension Fund Association for Local Government Officials formulates Administration and Investment Policy, which serves as the common policy for administration and investment organizations (the Local Public Service Mutual Aid Associations) subject to approval from the Minister for Internal Affairs and Communications. (Article 112-10 of the Local Public Officers, etc. Mutual Aid Association Act)

A Basic Policy pertaining to administration and investment of funds is formulated by the administration and investment organizations so as to conform to the Administration and Investment Policy set by the Pension Fund Association for Local Government Officials. (Article 112-11 of the Local Public Officers, etc. Mutual Aid Association Act)

(2) Basic approach to investment

■ Basic policy

As a basic policy, investment shall be made for the purpose of contributing to the stable management of the annuity retirement benefit operations in light of the characteristics of a cash balance-type pension program, whose benefit level is linked to the government bond yield or other benchmarks.

The benchmark portfolio shall be determined and appropriately managed so as to secure the necessary investment return on funds (meaning the assumed return (the assumed return as stipulated in Article 28, Paragraph (5) of the Order for Enforcement of Local Public Officers, etc. Mutual Aid Association Act)) at the minimum risk.
